A BETTER WAY TO TAKE CARE OF BUSINESS

Best-in-class health care. Built for your business.

To move your business forward, you need employees to be at their best. You can help keep them healthy and engaged by partnering with a health care organization dedicated to delivering efficient, high-quality care. Our integrated model of care offers innovative telehealth tools and a variety of flexible and competitive plans. All of this works together to provide better outcomes for your employees and better value for your business.

A connected approach to keeping businesses healthy

Doctors. Medical facilities. Health plan. We bring them all together to deliver coordinated and personalized care in ways other health care organizations simply can't match. When everyone's connected on one electronic health record, care is better¹ and far more cost-effective. Doctors and nurses are rewarded for delivering the right care, not more care. And clinicians can think and work as one to better deliver what matters to your business: better health outcomes, more value, and consistent service.

quality doctors who go through a rigorous selection process before they care for your employees

collaboration among clinicians to share best practices and prevent duplicate services

focus on wellness and prevention to prevent chronic conditions

chronic condition programs with personalized treatments to help improve outcomes for patients

expanded care access online or over the phone

specialty care for complex conditions, such as cancer care, neurology, and sports medicine

Convenient care for your employees – wherever they are

When care is convenient, your employees are more likely to get the care and services they need to stay healthy. At many Kaiser Permanente facilities, members can see their doctor, specialists, and pharmacist – all in one trip. If they can't make the drive, it's easy to connect to care virtually anywhere with phone appointments, email consultations, and video visits. They can even schedule routine appointments, view most lab results, and much more – online and with our app.
